POSITION DESCRIPTION

BACKGROUND

USAID's Office of Transition Initiatives (OTI) is seeking highly motivated, highly qualified individuals who want the opportunity to help support rapid international transition programs for priority conflict-prone countries. Created in 1994 as a distinct operating unit within USAID, OTI helps local partners advance peace and democracy in politically-transitioning countries. In support of U.S. foreign policy, OTI seizes emerging windows of opportunity in the political landscape to promote stability, peace, and democracy by catalyzing local initiatives through adaptive and agile programming.

Countries experiencing a significant political transition in the midst of a disaster or emerging from civil conflict have unique needs that cannot be fully addressed by traditional disaster relief. Timely and effective assistance to promote and consolidate peaceful, democratic advances can make the difference between a successful or a failed transition. OTI assists in securing peace by aiding indigenous, mostly non-governmental, civil society and media organizations. OTI uses such mechanisms as support for re-integration of ex-combatants into civilian society; development of initiatives to promote national reconciliation; identification of quick-impact community self-help projects to meet urgent economic needs; and aid to independent media outlets and community-based organizations to help promote informed debate and broaden public participation.

To respond quickly and effectively and meet its program objectives and mandate OTI retains a group of high level professionals and experts under U.S. Personal Services Contracts (USPSCs). These knowledgeable and skilled professionals make up the vast majority of the OTI work force and are at its forefront implementing and achieving the office's programmatic goals and

objectives. USPSCs are considered employees of USAID for all purposes except programs administered by the Office of Personnel Management (OPM) – such as federally sponsored health insurance, life insurance, and retirement benefits. However, there are several other similar benefits that USPSCs may participate in, such as partial reimbursement for health and life insurance costs, as well as full coverage of workers' compensation, among other benefits. For more complete information on USPSC benefits, please see page 15 of this solicitation.

INTRODUCTION

The IT/Senior IT Business Analyst is a member of OTI's Operations and Management Division which prides itself on maintaining positive morale in the division and a high degree of customer support and innovation for the office. OTI is under USAID's Bureau for Democracy, Conflict and Humanitarian Assistance (DCHA).

The IT/Senior IT Business Analyst must learn and understand OTI's business model and requirements in order to provide support for operational projects that improve the office's efficiency and effectiveness. Current projects underway include an internal website used by staff and implementing partners to provide guidance and share information, a recruiting website, and databases for financial management and human resources. The incumbent performs business analysis and architecture development in support of system users. The incumbent provides data expertise to be able to trace data through the system and assess the quality of data throughout the business process. The incumbent analyzes existing processes/reverse engineering; provides elicitation, analyses, and management of requirements; and develops Systems Development Life Cycle (SDLC) documents. Individuals in this position are responsible for providing the day-to-day project management for a small team including customer communications, expectations settings and timeline deliverable monitoring and risk management.

The IT/Senior IT Business Analyst will demonstrate sound judgment, excellent written and oral communication skills, including the ability to communicate technical topics to management and non-technical audiences, as well as interface with the customer on a daily basis. He/she demonstrates a positive attitude, while also possessing exceptional analytical and critical thinking abilities in order to manage the delivery and execution of high quality, multiple work assignments on schedule and with minimal direction.

CORE FUNCTIONAL AREAS OF RESPONSIBILITY

DUTIES AND RESPONSIBILITIES

The work of the IT/Senior IT Business Analyst requires teamwork, the exercise of discretion, judgment, and personal responsibility. As a member of a highly operational office, the incumbent is willing and able to perform a wide range of administrative functions to help ensure programmatic success. The incumbent has a high level of integrity and attention to detail to

SOL-OTI-16-000022

ensure the use of OTI systems and procedures to maintain effective and efficient management of funds, programming, and monitoring and evaluation. The incumbent is highly flexible and willing to work under conditions of ongoing change, and remains professional and respectful of colleagues and authority in a diverse workforce. She or he places a premium on the building of positive relationships with his or her respective team both in the field and in Washington, and with key stakeholders both in and outside of USAID. The incumbent is able to prioritize and complete tasks without follow-up by the supervisor, while also filling in gaps as needed to ensure the responsiveness of the team. The IT/Senior IT Business Analyst is a strategic thinker, articulates innovative ideas, presents solutions, and is a positive role model for colleagues both in and outside of OTI.

Under the direct supervision of the DCHA/OTI IT Team Leader or his/her designee, the IT/Senior IT Business Analyst will perform the following duties:

At the GS-11 IT Business Analyst level:

- Ensure provision of ad hoc development of simple, productivity-software-based solutions that improve operations productivity; lead system architectural design sessions in collaboration with other OTI teams; ensure that OTI systems are continually monitored, evaluated and improved upon as necessary in consultation with other OTI divisions;
- Develop lifecycle documents such as Use Cases, Detailed Functional Requirements, Software Requirement Specifications, Detailed Design Specifications, Test Scenarios, User Manuals;
- Provide project management, planning and risk management support; provide status reporting on assigned projects and/or activities;
- Requirements Gathering and Analysis: Collaborate with OTI internal users and external partners in working group settings to document the common technical and functional requirements for enterprise cloud-based solutions; facilitate meetings with project stakeholders to elicit requirements; analyze, develop, and manage detailed requirements documentation;
- If required, manage or assist in managing OTI budget, inventory and records;
- Act as the Contracting Officer's Representative (COR), Agreement Officer's Representative (AOR), or backstop COR/AOR for IT contracts and/or agreements;
- Following an initial orientation period, provide orientation, training, and mentoring for new staff;
- Research OTI's program and operations, analyzing current systems, processes, and requirements in order to provide optimal support for the OTI program; liaise and collaborate with the IT Team, OTI staff, and the USAID/CIO on the maintenance and support of existing

AAPD 06-10 – PSC MEDICAL EXPENSE PAYMENT RESPONSIBILITY

General Provision 28, MEDICAL EXPENSE PAYMENT RESPONSIBILITY
(OCTOBER 2006)

- (a) Definitions. Terms used in this General Provision are defined in 16 FAM 116 available at <http://www.state.gov/m/a/dir/regs/fam/16fam/index.htm>. Note: Personal services contractors are not eligible to participate in the Federal Employees Health Programs.

(b) The regulations in the Foreign Affairs Manual, Volume 16, Chapter 520 (16 FAM 520), Responsibility for Payment of Medical Expenses, apply to this contract, except as stated below. The contractor and each eligible family member are strongly encouraged to obtain health insurance that covers this assignment. Nothing in this provision supersedes or contradicts any other term or provision in this contract that pertains to insurance or medical costs, except that section (e) supplements General Provision 25. “MEDICAL EVACUATION (MEDEVAC) SERVICES.”

(c) When the contractor or eligible family member is covered by health insurance, that insurance is the primary payer for medical services provided to that contractor or eligible family member(s) both in the United States and abroad. The primary insurer’s liability is determined by the terms, conditions, limitations, and exclusions of the insurance policy. When the contractor or eligible family member is not covered by health insurance, the contractor is the primary payer for the total amount of medical costs incurred and the U.S. Government has no payment obligation (see paragraph (f) of this provision).

(d) USAID serves as a secondary payer for medical expenses of the contractor and eligible family members who are covered by health insurance, where the following conditions are met:

(1) The illness, injury, or medical condition giving rise to the expense is incurred, caused, or materially aggravated while the eligible individual is stationed or assigned abroad;

(2) The illness, injury, or medical condition giving rise to the expense required or requires hospitalization and the expense is directly related to the treatment of such illness, injury, or medical condition, including obstetrical care; and

(3) The Office of Medical Services (M/MED) or a Foreign Service medical provider (FSMP) determines that the treatment is appropriate for, and directly related to, the illness, injury, or medical condition.

(e) The Mission Director may, on the advice of M/MED or an FSMP at post, authorize medical travel for the contractor or an eligible family member in accordance with the General Provision 10, Travel and Transportation Expenses (July 1993), section (i) entitled “Emergency and Irregular Travel and Transportation.” In the event of a medical emergency, when time does not permit consultation, the Mission Director may issue a Travel Authorization Form or Medical Services Authorization Form DS-3067, provided that the FSMP or Post Medical Advisor (PMA) is notified as soon as possible following such an issuance. The contractor must promptly file a claim with his or her medevac insurance provider and repay to USAID any amount the medevac insurer pays for medical travel, up to the amount USAID paid under this section. The contractor must repay USAID for medical costs paid by the medevac insurer in accordance with sections (f) and (g) below. In order for medical travel to be an allowable cost under General Provision 10, the contractor must provide USAID written evidence that medevac insurance does not cover these medical travel costs.

(f) If the contractor or eligible family member is not covered by primary health insurance, the contractor is the primary payer for the total amount of medical costs incurred. In the event of a medical emergency, the Medical and Health Program may authorize issuance of Form DS-3067, Authorization for Medical Services for Employees and/or Dependents, to secure admission to a hospital located abroad for the uninsured contractor or eligible family member. In that case, the

contractor will be required to reimburse USAID in full for funds advanced by USAID pursuant to the issuance of the authorization. The contractor may reimburse USAID directly or USAID may offset the cost from the contractor's invoice payments under this contract, any other contract the individual has with the U.S. Government, or through any other available debt collection mechanism.

(g) When USAID pays medical expenses (e.g., pursuant to Form DS-3067, Authorization for Medical Services for Employees and/or Dependents), repayment must be made to USAID either by insurance payment or directly by the contractor, except for the amount of such expenses USAID is obligated to pay under this provision. The Contracting Officer will determine the repayment amount in accordance with the terms of this provision and the policies and procedures for employees contained in 16 FAM 521. When USAID pays the medical expenses, including medical travel costs (see section (e) above), of an individual (either the contractor or an eligible family member) who is covered by insurance, that individual promptly must claim his or her benefits under any applicable insurance policy or policies. As soon as the individual receives the insurance payment, the contractor must reimburse USAID for the full amount that USAID paid on the individual's behalf or the repayment amount determined by the Contracting Officer in accordance with this paragraph, whichever is less. If an individual is not covered by insurance, the contractor must reimburse USAID for the entire amount of all medical expenses and any travel costs the contractor receives from his/her medevac provider.

(h) In the event that the contractor or eligible family member fails to recover insurance payments or transfer the amount of such payments to USAID within 90 days, USAID will take appropriate action to collect the payments due, unless such failure is for reasons beyond the control of the USPSC/dependent.

(i) Before departing post or terminating the contract, the contractor must settle all medical expense and medical travel costs. If the contractor is insured, he or she must provide proof to the Contracting Officer that those insurance claims have been submitted to the insurance carrier(s) and sign a repayment agreement to repay to USAID any amounts paid by the insurance carrier(s).
